

What Makes Quantum Nutrition Labs *Unique*?

The Excipient-Free Company

Excipients are non-nutritive (often toxic) agents in nutritional products.

Quantum-State Nutrients Without the *Risk*

- No magnesium stearate
A toxic oil proven to suppress the immune system
- No animal glandulars
With toxic tag-alongs and death hormones
- No tablets
With toxic tag-along binders and fillers

The Quantum Nutrient Effect

When quantum-state quality nutrients (exquisitely well grown, free of toxic tag-alongs) are combined together, their effect is far greater than the sum of their individual benefits: The Quantum Nutrient Effect.

Ideal Cellular Resonance

The human cell has a crystalline matrix, which means it has an ideal resonant frequency. Only nutrients from "once living" sources can sustain or restore the ideal resonant frequency of your body's cells.

About Quantum Nutrition Labs

The Cutting Edge

What are the odds of getting a non-toxic and effective nutritional product? A landmark research study shows the odds of purchasing an effective, non-toxic herbal product today is only 2.5% (cited in JANA, Winter 2000). In contrast, Quantum Nutrition Labs (QNL) was founded to deliver uncompromising quality and effectiveness. QNL is committed to developing and providing 100% non-toxic and effective products.

QNL's Mission

QNL's mission is to help everyone restore and maintain great health, based on five key areas:

1. Broad-Spectrum Nutrients: Every nutrient critical to great health is readily available and in sufficient amounts in our products.
2. Living Nutrients: The nutrients contained in our formulas are delivered as concentrates from "once living" sources to provide ideal cellular DNA repair and protection, simply not possible from old style, isolated vitamin and mineral products.
3. Free of Toxic Tag-alongs: QNL guarantees its cutting edge, phytonutrient power-house formulations are free of toxic tag-along herbicides, insecticides, pesticides, heavy metals, fumigants, irradiation, etc.

4. 100% Solvent-Free Vegetable Capsules: QNL's products are made with 100% solvent-free vegetable capsules, not as toxic tablets with liver-toxic glues and binders or as gelatin capsules with the risk of animal-source prions and toxic preservatives.
5. No Excipients: QNL's products are 100% excipient-free. They do not contain questionable or hard-to-digest, non-nutritive substances such as magnesium stearate (a toxic, hydrogenated oil), silicon dioxide (common sand), methylcellulose, carnuba wax, etc.

About Our Products

Quantum Nutrition Labs provides consumers and health professionals with a full line of nutritional, body care and lifestyle products that work synergistically to help each person achieve and maintain great health. QNL has clinically developed its products working together with medical doctors, chiropractors, nutritionists and other health professionals to produce a full quantum-state, professional nutritional product line that embodies "*Nutrition That Really Works.*"™

QNL delivers uncompromising quality using unwavering standards of excellence to ensure extraordinary product purity. QNL has developed and clinically tested the effectiveness of each of its cutting edge nutritional formulas.
